ALCOA MATHS  
ENRICHMENT  
PROGRAM

# MATH 4 LOVE

EXCLUSIVE EVENT  
FOR PRIMARY  
TEACHERS

MONDAY  
4 DEC

## Internationally acclaimed math education specialist, Dan Finkel, Ph.D. visits Scitech for one night only.

Most of us have a skewed relationship with math: we hate it for its drudgery or love it for its consistency, but usually we don't have a sense of the whole picture. In truth, mathematics is an art.

Dan Finkel teaches mathematics in its whole context. Mathematics begins by playing... with games, puzzles, patterns, shapes, numbers, structures, rules, and ideas. From there, you observe and ask questions. Owning your

question leads to the rest: refinement, searching for solutions, discovering the connections that allow you to not just solve but understand your problem, and finally, rigorous writing and presentation of your solution.

An award-winning educator, Dan works with primary schools, develops curriculum, leads workshops, and gives talks on mathematics and education worldwide.

### Two ticket types available (limited places):

\$20 - 4.30 to 5.50pm Presentation and Q&A

\$50 - 4.30 to 5.50pm Presentation and Q&A + 6 to 7pm Masterclass\*

**Secure your place at [math4love.eventbrite.com.au](https://math4love.eventbrite.com.au)**

\*The masterclass will be a hands-on workshop of activities that transform the maths classroom.
