GOALS 2020-2024

SERVICES AND RESOURCES

» This goal focuses on how MAWA will provide support to individuals, professional learning communities, schools, school clusters and educational associations to further the teaching and learning of mathematics

PERFORMANCE MEASURES

» Quantity and type of professional learning events.
» Inventory records to track sales.
» Annual survey

CURRENT WORK

MAWA supports teachers and educators across the mathematics education community and WA families.

MAWA has a strong focus on:

» Conducting an annual Primary and Secondary Conference
» Offering quality in-school professional learning
» Conducting an annual Maths Expo that focuses on families
» Offering an extensive range of mathematics resources and publications
» Increasing social media presence on Facebook, Twitter and Instagram
» Implementing informal networking opportunities through Classroom Corner for teachers and Family Focus for parents

AREAS OF FOCUS

» Improved marketing and advertising
» Increase publications and resources
» Expand professional learning opportunities, including virtual PL
» Build capacity with regional areas of WA

OPERATIONS

» This goal focuses on how MAWA considers continuous improvement in these areas is vital to ensure that it is a dynamic, modern and progressive association that serves it members and the wider community.

PERFORMANCE MEASURES

» Staff engagement and satisfaction
» Efficiency of systems and processes
» Financial performance
» Board engagement and satisfaction

CURRENT WORK

MAWA has an operation of five staff, including Executive Officer, Corporate Manager, accounts advisor and office associates based at its premises in Mirrabooka.

» MAWA Board consists of up to 12 directors, operating under the MAWA Constitution
» The Association's approach is also evolving, including strengthening the use of committees such as Executive and Finance Committees and establishing clear terms of reference for them
» Establishing MAWA policies such as Child Safety Policy and Procedures

AREAS OF FOCUS

» Governance
» Improved information technology
» Improving alignment between staff and service delivery
» Efficient office systems
